

## **VERIFY THE PROVENANCE OF YOUR KATLA ITEMS THROUGH TRUEPIC TECHNOLOGY**

We are taking our commitment to transparency another step further by partnering with Truepic to deploy their secure media provenance technology across our global supply chains. This marks its first use in the fashion industry, and we're thrilled to be Truepic's first fashion partner.

In the following pages, you will see how Truepic's Vision platform ensures authenticity of photographic and video footage at the point of capture, tracking our operations, suppliers and distributors instantly with high-integrity image and video content. These photos were taken directly on the factory floor by the local teams and are geolocated, time stamped and verified authentic by Truepic's technology.

In addition to the increased transparency into our operations, this helps us to accelerate operations and reduce our carbon footprint as we scale production.

# **KATLA**
